The school now numbers twenty five officers and teachers and eighty six children. The design of this school is to teach the children to sew neatly, thus preparing them in the future to add to the comfort of their families, and in many cases to earn a support for themselves as seamtresses, while at the same time they will be under influences which cannot fail to impress their young lives for good. The treasurer's report on Monday afternoon showed that from the 1st of January to the 1st of April \$484 90 had been received in donations and subscriptions. Of this amount \$375 was appropriated to the employment branch of the Society; about \$20 to the Industrial School and the re-

QUININE AND ARSENIC form the ba sis of many of the Ague remedies in the market, and are the last resort of physicians and people who know no better medicine to employ for this distressing complaint. There has been very little activity in any branch of business during the week, the unfaverable weather, doubtless, having had some thing to do with the depression. In money matdetails, which may interest them. During the ters there is nothing of special interest to note. The banks have an abundance of capital for all legitimate business wants, and their last statements make a satisfactory exhibit. The Citizens' National Bank has reduced its capital stock from \$125,000 to \$100,000 by a unanimous vote of the stockholders. It is considered a foregone conclusion that the city debt will be readjusted upon the plen submitted by the representatives of the bondholders, or with only some slight medificaassist in the support of their families, additional tions. This consummation is devoutly to be wished for, as upon a speedy tolution of the difdisposal when it was deemed necessary. It signify depends, in a great degree, the future may be proper to state here, that we have been prosperity of the city. It is also considered certain that the creditors of the State will accept the proposition made them for a settlement of the debt, and thus remove this "bone of contention" from the arena of politics, and enhance the value of all the material interests of Virginia. Money "on the street" here is still very scarce, and the complaint of its scarcity is yet loud. In easy, with only a moderate quantity of new paper making. Call loans on Government collateral are quoted at 3 per cent, and time loans on mixed securities at 4a5. Discounts range from 42 to 6 per cent, the inside figure for a few well known names only. On time loans, where the collateral consists of approved Stock Exchange socurities, thirty day loans are 6 per cent, and sixty day 5 per cent. Where the collateral consists of United States bonds, the rates are 21s3 per cent for thirty to ninety days. Prime mercantile paper is 5.7 per cent. In the Philadelphia money market rates remain unchanged, with the offerings of paper extremely light. Government bonds at New York yesterday were weak, with a moderate business in all the issues. The closing quotations showed & decline in new 5s, and 1 in the others, except 10-40s, which were unchanged. At the Treasury in Washington subscriptions to the 4 per cent refunding certificates were received amounting to \$22,42).
